Galvanized Steel Structure and Side Impact Barriers

- Completely gasketed steel body frame ensures that all exterior elements, including dust, moisture and noise, remain outside the passenger compartment.
- Superior side impact protection is offered by the use of heavy-gauge steel side impact barriers that incorporate the seat rail into the design for extra strength.

Double Action Energy Absorbing Body Mounting Blocks

- Absorb road vibration
- Reduce noise transfer to the cabin interior
- Offer extended body durability
- Smoother passenger ride
- Prevent frame collapse
- Eliminate the need for periodic tightening of body bolts

Superior Insulation

- 1.5" fiberglass throughout
- Insulated roof bows
- Reduction in noise transfer into passenger compartment
- Prevents condensation

Patented Extra Wide Oval Body

- Aerodynamic styling
- Wider seating for increased comfort;
- Wider aisle for increased safety
- Better compartmentalization

Floor Plans

A wide range of configurations to better accommodate your needs.
